HEADING IN THE RIGHT DIRECTION

Ryanair's Pathway to Net Zero

Climate change is one of the great challenges facing our planet and in turn the airline industry. That's why we fully support the aims of the Paris Agreement.

We've developed a pathway to net-zero emissions by 2050 that aligns to the Paris Agreement and the aviation industry's Destination 2050 initiative. Ryanair's pathway shows that decarbonisation and alignment with EU climate targets is possible.

Based on a hypothetical scenario of no advancements being made in sustainable aviation fuel, technology, operations or regulation, Ryanair would be on track to more than double emissions by 2050 (from 2019 levels).

We recognise that this increase in emissions is unsustainable for the environment and for ourselves, so we've introduced Ryanair's Pathway to Net Zero.

WE EXPECT

10% reduction in emissions with the introduction of the Single European Sky initiative.

34% of carbon emission reduction targets delivered with increased use of Sustainable Aviation Fuel.

32% of carbon emission reduction targets to come from technological and operational improvements

24% of emission reduction target to occur with offsetting and other economic measures

HEALTHY FOR YOU AND OUR PLANET!

More and more people- vegans, vegetarians, and meat-eaters – are eating vegan for the benefit of animals, their own health, and the planet.

RYANAIR GIVING BACK

HOW DID YOU HELP?

RENATURE MONCHIQUE

Renature Monchique was established by Ryanair as part of its Carbon Offset Initiative in partnership with GEOTA, ICNF, the Algarve Tourism Board and The Municipality of Monchique in 2019 to help with the region's reforestation following the largest wildfire to have ever hit Europe back in 2018.

FIRST CLIMATE

Ryanair has worked with First Climate since 2019 in support of the Uganda Cookstove Project, which distributes energy efficient cookstoves to households in the Kampala region. Besides saving on fuel costs, these improved cookstoves reduce greenhouse gas emissions and contribute to the conservation of native woodland in Uganda.

SCRATCHCARDS

Ryanair Scratchcards, available to buy onboard, offer customers the opportunity to win cash prizes, luxury cars and the chance to scoop an impressive €1 million – for just €2 per ticket and with ongoing donations made to numerous charities across Ireland and Europe.

Scratchcards are only €2, or €10 for a bundle. Available to purchase onboard your Ryanair flight today.

All for a worthy cause:

OUR CHARITIES

As Europe's no. 1 airline, Ryanair is committed to giving back to charities and organisations that truly have impact in the countries and communities they serve. ISPCC CHILDLINE

Provides a range of services directly to children and families and advocates for change to enhance the lives of children in Ireland. Ryanair has worked with the ISPCC on numerous campaigns and initiatives to help their mission of making the protection of children everyone's priority. We are proud to partner with ISPCC Childline for the sixth consecutive year, having donated more than €500,000 to date.

PEQUEÑO DESEO

Is Spanish non-profit organisation. Its mission is to make the wishes of children with chronic illnesses or poor prognosis come true in order to support them emotionally and make their illness more bearable. Ryanair has worked with Pequeño Deseo for over 5 years as one of its Scratchcard charity partners, and has selected the Foundation as its chosen European charity partner for the third year running, having donated over €400,000 to date.

RYANAIR AND THE ENVIRONMENT

Message from our Director of Sustainability

The last decade has brought a lot of changes at Ryanair, and putting the environment at the forefront of our business is shaping the present and future of the airline.

Although aviation represents only a small proportion of man-made emissions worldwide, we must do our part to achieve a carbon neutral industry by 2050. Our efforts include a \$22bn investment in new efficient aircraft that will carry more passengers, but with 16% lower fuel consumption and 40% lower noise emissions, and supporting the development of Sustainable Aviation Fuels as the next key player for our sector.

Aviation

Aviation is the most efficient form of mass point-to-point transport, accounting for just 2.8% of EU man-made CO₂ emissions (vs 25% generated by road transport or 5% by the shipping industry). However, as a very small part of a big problem, aviation must play its role in addressing climate change, and Ryanair, as Europe's largest and most efficient airline group, is committed to leading the way.

You can make a difference

With Ryanair's **Voluntary Carbon Contribution Programme**, customers can offset their environmental impact when they fly. Using our new Carbon Calculator customers can now choose to fully offset their flight or alternatively make a carbon contribution at the end of the booking process. 100% of these funds are distributed annually to environmental charities and NGO's.

**With the help of our customers,
we have raised over €3.5m so far.**

Thanks for flying with us, you've made a great choice!

A woman with dark, wavy hair is the central figure, wearing a light peach, draped halter-neck dress. She holds a rectangular, pink-tinted perfume bottle in her right hand, raised high above her head. Her left hand is positioned near her shoulder, adorned with a large, ornate, metallic ring. The background is a soft, ethereal gradient of pink and white, suggesting a misty or dreamlike atmosphere. The overall aesthetic is elegant and feminine.
